

How to Make Blueberry Muffins

Makes: 8 muffins | Time: 30 minutes

EQUIPMENT	MUFFIN BATTER	CRUMB TOPPING
12-cup muffin pan Large mixing bowl Small mixing bowl 1-cup liquid measuring cup Rubber spatula Cooking spray, butter, or paper liners	1½ cups flour ¾ cup white sugar ½ tsp salt 2 tsp baking powder ⅓ cup vegetable oil 1 large egg ⅔ cup milk 1 cup fresh blueberries	¼ cup cubed butter ½ cup white sugar ⅓ cup flour 1½ tsp ground cinnamon

Procedure

- 1. Preheat the oven to 400°F.**
- Prepare 8 cups of a 12-cup muffin pan: grease them, or line with paper cups and add 1 Tbsp water to each of the 4 unused cups to prevent burning.
- In a large bowl, whisk together the flour, sugar, salt, and baking powder.
- In a liquid measuring cup, add the oil and egg, then pour in milk up to the 1-cup line. Stir to combine.
- Pour the wet mixture into the dry ingredients and stir until combined**—do not overmix. Fold in the blueberries with a rubber spatula.
- In the small bowl, mix the crumb topping ingredients with a fork until crumbly.
- Divide the batter among the prepared cups, about ¾ full. Sprinkle each with crumb topping.
- Bake for 20–25 minutes**, until a toothpick inserted in the center comes out clean. Bake 2–3 minutes longer if needed.
- Rest muffins in the pan for 2–3 minutes, then transfer to a wire rack and cool at least 5 minutes before serving.

Process Flow Diagram
